

Each presentation or talk is scheduled to last 20 minutes and is given simultaneously in English and German. 10 minutes will be reserved for your questions and comments.

We don't expect you to attend all speeches and presentations. Please choose the topics (see program **A to H, English or German**) that interest you. **Register online at www.iacds.org by Friday, April 16, 2010** at latest and come to the conference room in good time when a presentation is due to begin. Spontaneous visitors will, of course, also be very welcome.

These sponsors and organizers look forward to meeting you at the seminar at Bauma 2010:

International Association of Concrete Drillers and Sawers IACDS

Bauma 2010 Munich seminar

The very best of diamond technology

Friday, April 23, 2010, 10:00 to 14:00 · followed by a cocktail reception

Where Bauma 2010 Fair grounds, Hall B 1, Conference Room B 11

(Take the subway line 2, exit at subway station «Messestadt West» > «Eingang West» > first floor, north side > Hall B 1).

Organizer Organized by IACDS, the global umbrella organization of the national concrete drilling and sawing associations. Experts from the **4 sponsoring companies** introduce you to new fields of application and the latest advanced technologies and techniques:

Audience A seminar for the concrete drilling and sawing industry, for architects, engineers, planners, general building contractors and builder-owners.

Purpose You will hear about the latest developments and newest technologies in the concrete drilling and sawing industry. What has become possible that recently seemed to be impossible? How can the concrete drilling and sawing industry help to solve your problems?

Costs The seminar is sponsored by leading IACDS members and is thus free of charge.

Program

Schedule	Topic of presentation or talk	Speaker
A 10:00	Dry coring and dry wire sawing in reinforced concrete.	Martin Gödickemeier, Hilti
B 10:30	Cutting methods using a minimum of water with efficient recovery of dust and slurry.	Thierry Gillet, Husqvarna
